

**Greater Portland
City League Tennis Association**

**Captain's Handbook
2024 - 2025**

Important Information

One week prior to a match, the home team captain contacts the visiting captain to provide match details.

Include:

- start time
- number of first round and second round matches
- requested changes to the standard order of play
- parking information
- other unique information related to the match

The visiting captain shall confirm the match details.

Captains are encouraged to arrive 15 minutes prior to the match start time to facilitate the exchange of lineups and to verify first round players are present.

When designating an acting captain, review match day responsibilities prior to the day of the match. This includes knowledge of the lineup, arriving 15 minutes before the match and having a completed scoresheet ready for lineup exchange prior to the start of the match.

City League does not rely on USTA NTRP ratings for placement of players in a lineup.

It is strongly recommended the lineup be arranged in order of player strength and playing ability.
